

# STEPPING INTO HYDROGEN MOBILITY

with MobHy by PERSEE

## EXPLORING H<sub>2</sub> MOBILITY?

### MobHy your stepping stone

Are you new to the hydrogen mobility world and willing to take the first step into it? Do you want to know what the available options are and how they can adapt to your specific needs? If you have any of these questions unanswered then MobHy is for you!

## HOW CAN MOBHY HELP?

### A pedagogic journey

As a user, you will be able to access a rich and comprehensive portfolio of hydrogen-powered vehicles available (or soon to be) in Europe. MobHy lets you effortlessly browse through its portfolio and easily compare options. Besides, it is also possible to conceive adoption plans for land or waterborne mobility applications.

## HOW DOES IT WORK?

### Just like shopping online

Primarily designed like a shopping website, containing a detailed database of vehicles that are classified based on their maturity level. Some of the basic functionalities it offers include search, sort, compare options. It also includes more advanced functionalities such as an adoption process for a specific mobility need, be it on land or waterborne.

## WHAT'S SPECIAL ABOUT IT

### A community experience

MobHys' database comprises trusted and exhaustive information. How? By blending existing vehicle manufacturers' information with qualified upcoming vehicle data, scouted continuously. On top of this, MobHy receives regular validation through the multiple European projects it contributes to.

## OUTCOME

### Joining our community

Here's the deal... MobHy works under two trading schemes either Information for Information or Information for a Fee. You can access MobHy for free if you commit to contributing regularly to its database. Another option is for you to subscribe to a yearly plan for a fee.
